SERVICE

LALIZAS  *LifeSaving*

Safety remains the most important consideration aboard a passenger vessel, offshore vessel, and oil rig/platform. LALIZAS offers worldwide service, in which customers are directly handled by safety experts in a worldwide scale without delay. All commercial vessels can be offered the essential prerequisites, receiving full services with minimum port stay.

Our expansive product line and services comply with international maritime regulations and equipment standards, related to maritime and national standards. Our partnering and proprietary programme LALIZAS Monitoring System, known industry-wide as "LMS", is exclusively offered by LALIZAS Fire Safety & Rescue, and includes the annual, bi-annual, three-year, five-year, ten & twenty-year maintenance requirements from various Flag States, the IMO, Class Societies, OEMs, and LALIZAS. The LMS is dedicated to monitor and plan a vessel's fire fighting, rescue and lifesaving requirements, so that the vessel remains in compliance and ultimately in service.

Service & Supply at Most Major Ports
