

# FIRE SAFETY RESCUE SERVICES

KEEPING VESSELS COMPLIANT, OPERATIONAL & READY

From fixed firefighting systems and portable fire safety equipment to lifeboat inspections and worldwide service coordination, LALIZAS supports shipowners and ship managers through a single global service platform. Built around operational continuity, inspection readiness and worldwide execution capability, our Fire Safety Rescue Services help fleets remain compliant while minimising operational disruption.

- ✓ GLOBAL SERVICE COORDINATION
- ✓ VESSEL READINESS
- ✓ CLASS & FLAG COMPLIANCE
- ✓ MINIMUM PORT STAY
- ✓ WORLDWIDE PRESENCE

# FIXED & PORTABLE SYSTEMS & FIRST RESPONSE READINESS

**Safety systems are only valuable when fully operational at the moment they are required.**

LALIZAS supports vessels worldwide through inspection, testing, maintenance and certification services for critical firefighting and emergency response systems. Through a global audited network and centralised coordination model, operators receive consistent support across ports, makers and service stations.

## FIXED FIREFIGHTING SYSTEMS

- Foam Systems
- CO<sub>2</sub> Systems
- Water Mist Systems
- Sprinkler Systems
- Fire Detection & Alarm Systems

### FOAM ANALYSIS & COMPLIANCE SUPPORT

Testing in accordance with IMO requirements and applicable international standards, including traceability and compliance monitoring support for modern fleet requirements.

Annual inspections, testing, commissioning support, cylinder handling, foam analysis, hydro-testing and certification coordination according to applicable international requirements.

## PORTABLE FIREFIGHTING EQUIPMENT

- Portable & Wheeled Extinguishers
- SCBA & EEBD
- Fireman Suits
- Portable Gas Detectors
- Emergency Response Equipment

Inspection, refilling, hydro-testing, calibration and replacement support through worldwide coordination.

# LIFEBOAT LIFECYCLE SUPPORT & INSPECTION READINESS

**Compliance today  
is not only about equipment.  
It is about operational readiness,  
traceability and consistency.**

Modern inspections increasingly focus on maintenance history, certification alignment and proper lifecycle management of critical safety systems. LALIZAS helps shipowners and ship managers reduce operational complexity through centralised coordination and worldwide support.

## LIFEBOAT, DAVIT & RELEASE GEAR SERVICES

- Lifeboats & Rescue Boats
- Davits & Winches
- Release Gears
- Load Testing
- Annual & 5-Year Inspections

Coordinated attendance through approved service stations and manufacturer-aligned service networks worldwide.

## INSPECTION READY VESSEL & REDUCED OPERATIONAL DISRUPTION

- Certificate Due Date Monitoring (90,60 & 30 days prior)
- Documentation Consistency
- Deficiency Prevention Support
- Pre-Inspection Preparation
- Multi-Port Coordination

Supporting technical and HSQE teams in maintaining vessels inspection-ready while reducing unnecessary observations and delays.

# GLOBAL COORDINATION LOCAL EXECUTION

Managing safety services across multiple makers, ports and service stations can create unnecessary operational complexity. LALIZAS simplifies the process through a centralised global coordination model designed around fleet support and operational continuity.

## BUILT AROUND FLEET OPERATIONS

Supporting:

- Shipowners
- Ship Managers
- Offshore Operators
- Passenger Fleets
- Tanker Operators
- Bulk & Container Fleets

Through practical operational support and worldwide service execution.

**SINGLE POINT OF CONTACT**

**FAST RESPONSE CAPABILITY**

**WORLDWIDE NETWORK**

**STANDARDISED REPORTING  
& CERTIFICATION**
